Chicapoula Parade Top Item Tuesday

Crews of Chicapoula will parade through town Tuesday morning in the Bay High School sponsored celebration of Mardi Gras.

The local parade will pass reviewing stand on the corner of the square where the king and queen will be surrounded by their court.

Major John A. Scaife will be the king and queen, Geraldyn and Harry Shattuck, both high grade students at Bay High School, and present the royal court with a key to the city. The king then will toast his subjects.

Maids will be Marie Haywood, Dixie Dixon, Carol Diane Ladner, and Thomas, Ann Bourgeois and Billie Bibo. Their dukes will be Woodie Carroll, Bob McCutcheon, Richard Shaefer, Joe Lewis, Billy Kidd and Davey.

Flower girls will be Mary Chapman and Jo Ann Curet. Ring bearer will be Ben Cardin and Nikki. The king and queen will be escorted by the young king and queen, who will be in Bay High School uniforms after the parade. Entertainment will be by students of Russell's Dancing Studio.

J. Cyril Glover has asked all women in the parade to get touch with him and receive numbers. Those who have registered their floats should Mrs. Claiborne Ladner.

Parade will line up at the roll away entrance to Bay High School by 1:30 p.m. The parade will start there at 2 p.m. and proceed down Carroll Ave. to Beach St.

From there the revelers will wind from Main St. to Necaise Ave., to Bookter St., to Union St., to Second St. and back to the Ullman Ave. entrance to the school.

The celebration in the gymnasium will be after the parade. This parade, carrying the theme of "Historical Events," is the 12th successive one to be sponsored by Bay High School.

Names of 18 couples compose the list of maids and dukes for the S.J.A. Carnival Ball Friday night which Mrs. Robert L. Kenney, chairman of the court committee, has released. The ball sponsored by the Parents Club, will be from 9 to 11 p.m. at St. Joseph's Academy gymnasium.

While the names of the king and queen remain a tightly guarded secret, there is speculation that they may be among those listed as maids and dukes. Chosen to serve as maids are Mesdames John Bonck, Charles Dickson, F. E. Downs, Francis L. Foley, Edgar Little Jr., Paul Loup, David L. Poindexter, Perry Quintini, Ruben Ruiz, Fred States Jr., Van Smith, Herbert L. Stiefel, Charles Thomas, Macrine Trelles and the Misses Vickie Fournet, Linda Lee Normand, Mary Staehle and Harriet Ann Ward.

The dukes are Dr. Wesley McFarland, Kenneth Plunkett, Charles Staehle, Leo W. Seal Jr., Dr. A. K. Martindale, Larry Mauffray and Messrs. Dickson, Downs, Foley, Little, Loup, Poindexter, Quintini, Ruiz, Sintes, Stiefel, Thomas and Trelles.

Grand march of the king and queen and maids and dukes will be held in a palatial setting, said Mrs. Virgil Giam, decorations chairman.

In keeping with the Cinderella theme of the ball, the gymnasium is being converted into a fairyland palace ballroom with chandeliers, columns and a backdrop painted with replicas of famous Renaissance statues. A life size papier mache horse and carriage will be near the elegant thrones of the king and queen.

Music will be piped from a high fidelity phonograph for the tableau, grand march and dancing afterward.

Students at Dot Russell's Dancing Studio will present a Cinderella tableau before the entrance of the royal couple and their court. The grand march of the royalty will be followed by general dancing.

Sheriff Studies Two Robberies At US-90 Businesses

Two robberies were investigated Friday morning by the Sheriff's Department. Sheriff Sylvan J. Ladner Jr. and Deputy James Necaise investigated a break-in which apparently occurred between 4:30 and 8:30 a.m. Friday at McArthur's Pure Oil Station on US-90. Mrs. Allyne Bourque, employed by proprietors Mr. and Mrs. Martin McArthur, told the investigating officers she left the station and closed it at 4:30.

Locks were pried off two gas tanks and gas was stolen. Thieves also broke station windows and took fire works, cigarettes, chewing gum, peanuts, beer and money from a juke box which was broken into.

Johnny Dauvo reported the theft Friday of \$45 worth of fireworks and \$3.50 in pennies from his prize shop on US-90. Chief Deputy Carl Garcia investigated this robbery which apparently occurred at approximately the same time as the other robbery.

No suspects have been located, Sheriff Ladner said.

A reception was that night at the seminary.

Pilgrimage to Feature Old and New Kitchens

Three kitchens, two representing the modern and one along antique lines, are new additions in the Bay-Waveland section of the 12th annual pilgrimage of the Mississippi Gulf Coast Council which begins Feb. 15. The local tour is scheduled Tuesday, Feb. 17, beginning at 10 a.m.

The modern kitchens are those of Mr. and Mrs. Don McCulloch, 410 N. Beach Ave., and Mr. and Mrs. John McDonald, 504 N. Beach Ave. The antique one opened to the public will be at the home of Dr. and Mrs. John F. Dicks on Waveland Avenue.

L&N Drops Waveland Depot Case

Louisville and Nashville Railroad has withdrawn its application to the Mississippi Public Service Commission for permission to discontinue services of a ticket agent at Waveland Depot, Waveland Mayor Garfield Ladner reports.

Earlier a hearing on the discontinuance was scheduled before the MPSC Tuesday but the railroad withdrew the application last week, before the hearing was scheduled, Mayor Ladner had been prepared, he said, to appeal before the Commission with statements from local shippers and receivers of cargo at the depot, showing their need of an agent's services there.

Weather, Not a Posse, Rounds Up Runaways

Two runaway county youths apparently tired of Monday's miserable weather and returned to their families Monday afternoon after spending almost 24 hours evading all efforts to bring them back.

James Watson, 15, and Ronnie Fletcher, 14, left their homes at Holly Bluff Gardens and Texas Flat Road, respectively and rode two white horses into a woods at Kiln Sunday afternoon. They were seen as late as 9 p.m. Sunday but did not return home that night.

Sheriff Sylvan J. Ladner was notified of their failure to return Monday morning and a search of surrounding woods was begun on the premise that the boys might have become lost or been injured in the woods. Sheriff Ladner and Deputies James Necaise and Raoul Tethard were officers present.

The youngsters almost were stopped early Monday afternoon when a searcher approached a barn only to see them jump from a loft to their horses and ride off.

The search was stopped then since the two apparently had spent the night in the barn and

Mothers Net \$811.30 For Dimes Drive

A team of nearly 40 women canvassed homes throughout Hancock County in a Mothers March which netted \$811.30 for the March of Dimes, reported Mrs. Theo Tudury, Hancock County chairman of the National Foundation March of Dimes January campaign. Mrs. Dan M. Russell Jr. was Mothers March chairman.

"Returns from the Mothers March were very gratifying," Mrs. Tudury said, "although donations as a whole are way below the amount they should have reached by now."

One half of all donations are kept within the county, Mrs. Tudury remarked, for care and prevention of diseases which now are being fought by the National Foundation. The other half is used by the Foundation for research.

Discovery of the Salk vaccine for the prevention of polio allowed the Foundation to spread its sights to the control of virus diseases, birth defects and arthritis.

Local residents are reminded of the envelopes mailed them at the beginning of the drive. Would-be donors still may send contributions to the drive in these envelopes.

That's exactly what they did at 3:30 p.m. Monday.

Mrs. Sarah Washington, who resides in the house at 225 Ballentine St., said that she and a neighbor stopped the blaze with buckets of water after she saw the flames rising as high as the bedroom window.

She said she also tore burning boards from the outside wall. The boards and a small section of the outside wall were charred. She said the flames and smoke also ruined a sack of meal placed near the window.

Supervisors Eye Industry, Tourist Trade for County

A professional survey of Hancock County's industrial capacity, especially in terms of labor supply, tax structure, land, utilities and availability of transportation was suggested at a called meeting Tuesday of Hancock County Board of Supervisors attended by nine local business leaders and Mayor John A. Scaife of Bay St. Louis.

The nine business representatives who were asked to give their suggestions for interesting industry and tourist and residential trade in locating within Hancock County, are Leo W. Seal Jr., Hardin Shattuck, Homer Gregory, A. G. Dantagnan, K. W. Peppardene, Joe B. Burrow, Mrs. C. B. Mollere, James De Blanc and Capt. Charles Traub.

Mayor Scaife noted that each of the three coastal counties receives 1 3/4 cents of the 3 1/2 cents state tax on each gasoline dollar. This rebate was granted for the payment of bonds for the building of sea walls.

It is possible, Mayor Scaife said, that the state would continue to grant the rebate even after the bonds are paid in about four years, if the county could present plans for another project which would be of benefit to it.

Harrison County has done this, observed Beat 5 Supervisor R. G. Hubbard, and will use the rebate now to finance construction of a waterway between Bay of Biloxi and Bay of St. Louis.

Harrison County rivers empty into the Bay of St. Louis he said. Therefore it will be possible to follow the rivers into the Gulf by means of the new waterway.

Necessary dredging for the Harrison County project could benefit Hancock County indirectly, Supervisor Hubbard remarked, if this county would open up Jordan River and Bayou La Croix for river transportation into the Bay and on to the Gulf.

"Actually we should think in terms of two separate campaigns for growth, one directed at industry and the other at prospective tourists or residents," Mayor Scaife said.

"We should advertise our obvious natural resources, which are climate, scenery and the beach, at least until a complete industrial survey can be made," said Mr. Dantagnan.

"We won't get industry until the survey is made," Mr. Dantagnan added. He further stressed the cumulative economic benefit that even one new family brings to the community.

The supervisors agreed during the discussion to spend \$250 for a page advertisement Saturday Closing Told For The Echo Offices

Hospital Plans Sent to Atlanta

Final plans for the proposed Hancock County Hospital have been sent by Mississippi Commission on Hospital Care to U. S. Public Health Service at Atlanta, Board of Supervisors attorney Sam L. Favre said at Monday's board meeting.

Mr. Favre was told by Foster Fowler, executive secretary of the commission, that the plans were received Friday from Gulfport architect Wilfred Dawson and were reviewed by the commission before they were sent to Atlanta.

The U. S. Public Health Service probably will act upon the plans within three weeks, Mr. Favre said.

In other business at the supervisors' meeting:

Advertisement for bids on a six-mile road project in Beat 1 between Pearlinton Rd. and Highway 43 has begun and bids will be opened at 1 p.m. March 3, it was announced.

The board approved readvertisement of a state aid road project in Beat 1.

Fred Wagner of the New Orleans architectural firm of Oubre and Wagner showed the supervisors at a special meeting Tuesday a drawing of the County Courthouse as it is now with red lines illustrating the proposed expansion of the building.

The additional space will provide room for a circuit and chancery clerk when the office of clerk of courts is divided at the next election. The plans also will increase the size of the sheriff's office and will include new office space for the board of supervisors.

Mr. Wagner said he would show preliminary cost estimates and plans at the Feb. 16 meeting of the board.

Trophies Are Listed For Garden Show

A silver trophy donated by Mr. and Mrs. P. E. Porter Sr. will be awarded to the sweepstakes winner in the horticulture division of the Bay-Waveland Garden Club's 1959 Camellia Show next weekend while the tri-color prize for the best blossom will be presented by the Hancock Bank.

These are among the top awards being offered to competitors in the annual event scheduled Saturday, Feb. 14, and Sunday, Feb. 15, in the building at the corner of Main and Second Streets, Mrs. BenHille Sr., general chairman, has announced.

The tri-color trophy for the best arrangement in the seniors' division is being given by the Merchants Bank while Mr. and Mrs. A. G. Dantagnan are donating a silver trophy for the sweepstakes winner in this division. The trophy for the second best arrangement is being given by Mr. and Mrs. Gordon Gleim.

In the junior arrangement division for high school students, the trophy for the best arrangement is being donated by Mr. and Mrs. Paul Miller while the sweepstakes prize is offered by the Bay-Waveland Garden Club. The club also is giving the sweep-

Tax Deadline Brings Rush

Offices of Sheriff and Tax Collector Sylvan J. Ladner Jr. were kept open until 5 p.m. Saturday to accommodate the last minute rush of poll and property tax payers who waited until the deadline date.

The collection deadline fell on Jan. 31 instead of Feb. 1 this year, since Feb. 1 was a Sunday, as reported by the Echo last week. While some had been led to believe that it had been moved forward to Monday, Sheriff Ladner reported that most of them had checked on Saturday in time to pay by 5 p.m.

An employee of the Clerk of Courts' office said voter registration has been especially high this year and that citizens seemed to show a heavy interest in the coming state and county elections. The employee also remarked that many persons did not realize that registration, which will continue through April 30, was as important a part of voting qualification as payment of poll taxes.

STRATEGY MEETING--Student leaders at Bay High School discuss plans with advisor, Miss Lucy Grantham, for the Heart Sunday canvass of Bay St. Louis homes Feb. 22. From left to right Sally Chevis, president of the Beta Club; Jeff Stephens, president of the senior class; Miss Grantham, Floyd Christy, vice-president of the junior class; and Alice Maurer, secretary of the Beta Club. Bay High students, working under these five leaders, will seek donations in the house to house collection for the Hancock County Heart Drive. County wide goal is \$1200. This is the first local Heart Sunday, although it is observed in many cities throughout the nation, said Mrs. C. R. Beyer, local drive chairman.

A Statement of Policy

The basic responsibility of any newspaper is to provide its readers with information dealing with current events—news. In the case of a county weekly this news is almost exclusively related to the happenings, comings and goings of local organizations and people. Subject to limitations of space and of being human the Echo will give its readers objective, accurate and fair coverage of the news of Hancock County.

Another usual responsibility of a newspaper is to provide the individuals, businesses and governmental agencies with a medium through which to communicate to the public—advertising. Advertising differs from news in that the advertiser controls the content rather than the newspaper, and the advertiser is not as restricted by objectivity, accuracy and fairness. While the line of demarcation between news and advertising is sometimes difficult to draw, the Echo will not print as news what it considers advertising nor will it charge to print what it considers news.

By tradition, if not logic, the editorial columns of a newspaper are reserved for the editor's opinion. Since he must evaluate, on occasions this differs from news in that it is subjective, not objective. The Echo will follow this tradition, but will attempt to be as accurate and fair in its editorials as in its news stories.

Finally, the Echo will gladly print letters to the editor from its readers. The subject matter of these letters must be in the opinion of the editor of interest to other readers, must be signed but on request the name will not be printed, usually must not be over 250 words, and must be in good taste.

In short, the Echo will strive to be fair to its readers, to its advertisers, to the public, and particularly to its own conscience.

A Bonus From the Garden Clubs

Spring must be nearly here, even if to a newcomer it does seem a little early. This profound statement is prompted by the knowledge that the Bay-Waveland Garden Club's Camellia Show is to be held on February 14 and 15, while the annual spring pilgrimage, sponsored by the Mississippi Gulf Coast Council of Garden Clubs, commences on February 15, with the Bay-Waveland tour on February 17.

The pilgrimage sponsored by these garden clubs differs from many such events in that there is no charge of admission to any of the homes and gardens on display. Certainly a nice gesture of good will.

When no charges are made those who have never seen these superior places have little excuse, time permitting, for not visiting them. We urge the people of Hancock County to try to arrange their time so as to at least see the places opened in the Bay-Waveland area.

the American Way

By M. V. EGGLESTON

Even though orders for steel were not so flourishing during 1958, America's steel industry looked forward to better sledding ahead. With unbounded confidence in America's future, the iron and steel companies spent \$1.2 billion for new equipment and construction during 1958 and, according to the American Iron and Steel Institute, will lay out more than one billion dollars during 1959. This will bring to more than 41 billion dollars the industry's investment for such years as the five-year period (1955 to 1959 inclusive).

Total steel-making capacity has now reached the record total of 147.6 million tons of ingots and steel for casting annually. This represents a gain of nearly seven million tons during 1958, a recession year.

Steel companies plowed right ahead expending these vast sums of money for more and better facilities? Simply to keep up with the requirements of their customers who constantly demand more and better steels. Also, it is a matter of self-preservation. They must constantly strive to meet competition from foreign steel-making companies as well as competition from other materials.

The main point in passing on these steel-making statistics, however, is to let readers of this column know that steel company managements and steel company directors and stockholders optimistically look forward to an "American Way" that will transcend all previous accomplishments; to a higher standard of living for all of our American people.

We salute the men of steel.

Well, Congress—

My Favorite Prayer

BY WESLEY POWELL

Governor of New Hampshire
Oh, God, our help in ages past,
our hope for years to come,
we approach Thy throne of grace today
in accordance with what Thou hast commanded us in Thy word,
to enter into Thy gates with thanksgiving and into Thy court with praise.

We ask Thy special blessing this day upon the Governor of the State as he assumes his responsibilities. Grant that Thou will enable him to resist the temptations of his office. Give him the physical and spiritual strength needed for the unknown tomorrow. Help him to do those things himself which he will require of others.

Grant that the authority of his example may be greater than the authority of his office, and we pray especially that throughout his tour of duty as Governor of this State that he may keep the faith of those who are near and dear to him, and the faith of others who believed in him enough to place him where he is today, and far above and beyond all else, faith in God the Creator, Preserver and Governor of all things. We ask this in the name of Jesus.

Power Company Pays \$26,182.15 In County Taxes

A. H. Gregory, Bay St. Louis manager of Mississippi Power Co., has delivered a check to the Hancock County sheriff and tax collector in payment of ad valorem taxes for 1958. The check was for \$26,182.15. Mississippi Power Co. is one of the largest taxpayers in the area.

In addition, a company check in the amount of \$7,386.99 in payment of city taxes was given to the Bay St. Louis city tax collector and another for \$800.41 to the Waveland tax collector.

Mr. Gregory said franchise payments for the last quarter of 1958 had been made earlier, bringing the total for the year to \$4,566.45 in Bay St. Louis and \$1,523.02 in Waveland. This amount represents 2 per cent of the company's gross revenue in Bay St. Louis and Waveland during 1958.

Total city and county taxes and franchise payments amounted to \$40,458.75 for 1958, a substantial contribution to the operation of local government in Hancock county.

If Tax Deductions Exceed 10 Per Cent Long Form Best

This is the last of a series of articles on federal income tax filing. The articles are based on information provided by the American Institute of Certified Public Accountants and the Mississippi Society of Certified Public Accountants in cooperation with the Internal Revenue Service.

The big question facing the small taxpayer at this time is whether to itemize deductions or take the standard deduction.

Before you give up and file a "short" form, take the time to add up the family expenses that could be deducted. If the deductions that could be itemized total more than 10 per cent of your adjusted gross income, it will pay you to file a "long" Form 1040.

Here is a list of the more important items to watch for while you compile the list of family deductions:

Interest on Loans—The interest you paid on loans is deductible. This includes any mortgage, automobiles, appliance, home improvement or personal loans you may have had. Interest on installment purchases is also deductible. Evidence, such as a statement from the seller, should be obtained to show the amount of interest that you paid during the year.

State and Local Taxes—Most taxes, other than federal taxes, are deductible. These include state and local real estate, personal property, income, retail sales, gasoline and poll taxes. You can deduct auto license fees, but not auto inspection fees. If you don't have an exact record of some of these taxes, you can make a reasonable estimate.

Charitable Contributions—Gifts to charitable, religious, educational, scientific or literary organizations are deductible. Generally, these contributions are deductible up to 20 per cent (in some cases 30 per cent) of your adjusted gross income. In adding up your donations, don't overlook the old clothes, toys, books or furniture you may have contributed to a local charity or church. The fair market value of these gifts is deductible.

Medical and Dental Expenses—Unless you or your wife has reached the age of 65, your

medical expenses are deductible only to the extent that they exceed 3 per cent of your adjusted gross income. Include in your medical deduction the cost of doctor, nursing, dentist's X-rays, and hospital services. You also may deduct premiums for health, accident and medical insurance.

Casualty Losses—You are entitled to deduct your uninsured home losses from fire, theft or storm. Damage to an automobile is deductible if the accident was due to faulty driving but not negligence on your part.

Child Care Expenses—Widowed, divorced or legally separated taxpayers, who must pay for the care of a dependent while they work can deduct up to \$600 of this expense. Check carefully the requirements in the official instruction book before claiming a "baby-sitter" deduction.

Miscellaneous Deductions—If you had certain expenses in connection with your employment (other than travel and reimbursed expenses), you may claim them as miscellaneous deductions. Examples would be tools, uniforms, union dues and employment agency fees. "Periodic" alimony or separate maintenance payments ordered by the court also are deductible under this heading.

County Traffic Kills 17 in '58

Seventeen persons died in 1958 as the result of injuries received in traffic accidents in Hancock County.

Only four counties in Mississippi counted more deaths in 1958. They were Hinds, 34; Harrison, 20; Lauderdale, 21, and Washington, 19.

The statewide highway death toll climbed to 547 in 1958 accidents, Commissioner of Public Safety Tom Scarbrough said.

The mounting death toll moved Mr. Scarbrough, as head of the State Highway Patrol, to state that there would be no let-up in the Highway Patrol's traffic law enforcement program.

"Traffic-violating motorists can expect little sympathy from patrolmen," Mr. Scarbrough said.

Blamed by the commissioner for most accidents were careless, irresponsible driving. "Speeding, cutting those yellow lines, passing when there isn't enough time to insure safety, rushing along bumper-to-bumper, this is kid stuff. And worse, it kills," he said.

Stressing the need for continued strict traffic enforcement, he said, "You don't turn enforcement on and off like a water faucet. You just keep your shoulder to the wheel and push and this is exactly what the Highway Patrol is going to continue to do."

U. S. Budget Is Given to Citizens

Citizens of Hancock County will have to pay the 1960 federal income tax under the President's program of 77 cents per dollar of income over \$100,000.

That is the Mississippi Economic Council, which says a new economic index will have a pay-off of \$323,400,000.

This county's economic picture, according to the council, is a picture of a nation that is 100 per cent of Mississippi. That figure gives \$323,400,000.

County Agent Notes

Social Security

Mr. Farmer, be sure your business records are up to date before the time for making social security returns.

With your report you must include a schedule of income and expense. If your net profit was \$400 or more in a year, social security tax must be paid.

File your social security tax report before April 15, 1959, and pay the tax of 3 3/8 per cent.

Dairy Records

If you think records are only for the big dairymen, you're wrong.

Records are just as important — if not more so — to the small dairymen as they are to the larger operator. You do not need to go to a lot of expense to keep records.

The "weigh-a-day-a-month" plan is simple and it does not cost much money or time. Here is what you do:

Weigh the milk from each cow morning and night one day each month. Record the date each cow freshens and goes dry, as well as purchases, sales and deaths of cows. Also, include herd feed records.

Then mail the form to the county agent's office where your record will be calculated each month and returned to you.

These records are considered "unofficial" and cannot be used in the national sire testing program, but they provide some valuable information.

The records let you know which animals are not producing profitably and should be culled. They let you know which animals are high producers and should be selected to breed for replacements. The records also let you feed each cow according to her ability to produce.

Pasture Weed Control

Let chemicals help you keep weeds out of your pasture. Amine 2,4-D applied at the rate of one pound in 20 gallons of water an acre will do a job on many pasture weeds.

Dock and thistle can be sprayed now in established white clover or small grains. Do not use the 2,4-D on crimson or red clover or vetch as this material will injure these plants.

Wild onions in small grains can be knocked down and out of the way with 2,4-D.

A little later in the spring you can begin spraying for bitterweed control. Applied early when the bitterweeds first begin to show up and cotton is not planted, the amine 2,4-D is relatively

safe and will kill out the small bitterweeds and also kill the seed of other bitterweeds not yet germinated.

Used at two pounds an acre, amine 2,4-D is recommended for control of cypress weeds. For more information on this, see the county agent.

Corn for 1959

Make an estimate to see how much corn you will need in 1959. Then select enough good corn land to produce what you will need. If you have good corn land left, you may want to grow some corn to sell.

After you select your corn land, take soil samples and send them to the State Soils Testing Laboratory. Then follow soil test recommendations. This takes the guesswork out of your fertilizer program.

Get a supply of hybrid corn seed adapted to Hancock County. Hybrids will raise yield 15 to 25 per cent more than open pollinated varieties.

Some of the adapted hybrids recommended by the Agricultural Experiment Station this year include:

South Mississippi, white corn - coker 811, Funk G-733W, and La. 521, Yellow corn - Dixie 18, Jackson, Lee, Funk G-740, and McCurdy 1003.

If you plan to grow soybean silage, remember the best quality corn silage is made from hybrids that produce a high yield of grain. Choose a hybrid recommended for your area for high yields and erect plants.

Coastal Bermuda

It will play well to set spring Coastal Bermuda grass in mid-winter. You can buy sprigs from many Mississippi farmers. To see your county agent and find out if a source of sprigs is located near you.

On heavy land, where there is not a heavy stand of common Bermuda, you can use a "mowing machine" and set Coastal sprigs without breaking up the land.

CHEVY'S NEW HI-THRIFT 6

More miles are back in a gallon of regular-grade gas—up to 10% more—and Chevy's new Hi-Thrift 6 engine puts them there. It also gives you more "git" in the roads you drive the most.

Here's an engine that always seems able to coax extra miles out of a tank of regular-grade gas. In fact, if you're one of those drivers who keep tab on things like gas mileage, you'll soon see for yourself that this new Hi-Thrift 6 gets up to 10% more miles a gallon.

Another thing you'll like about this 135-h.p. 6 is the

extra pep it gives you for passing and climbing hills. This is due to higher torque at normal speeds.

It may be hard to believe anything that looks and moves like this '59 Chevy can be such a stickler for economy. But—whether you pick the Hi-Thrift 6 or a vim-packed V8—this is just one more reason Chevy's the car that's wanted for all its worth. Stop by your dealer's and see.

Plans Nearing Completion For City Hall Remodeling

Specifications are due Wednesday for a \$7,500 remodeling of the City Hall, according to Finance Commissioner and Tax Collector Warren Traub.

The entire first floor of the building will be remodeled so that the recently vacated offices of the County Public Health Center may be used by the finance commissioner, Mr. Traub said. Fred Wagner, of the New Orleans firm of Ombre and Wagner is designing the building improvement. Mr. Wagner also is architect for the proposed new Public Health Center, which will be located at the corner of Second and Union Sts. Public Health Center facilities have been moved temporarily to 123 Carroll Ave.

Most of the remodeling will involve connecting the former Health Center offices with the city offices and converting that space to serve finance commission needs. Private offices for Mr. Traub and his assistant, Miguel Parillo, also will be installed.

"For some time we have needed more space in order to serve the public efficiently," Mr. Traub stated.

Pass Prisoner Killed in Fire

One prisoner was suffocated to death in a fire which broke out early Wednesday in a basement jail cell of Pass Christian City Hall, causing extensive damage to the building.

A coroner's jury ruled that John Berrigan, 50, suffocated before flames burned his clothes from his body, leaving only his shoes intact. Apparently the blaze started when a bunk bed mattress was ignited.

An employee of the Daigleville Packing Co. discovered the fire about 2 a.m. and notified the fire department and police.

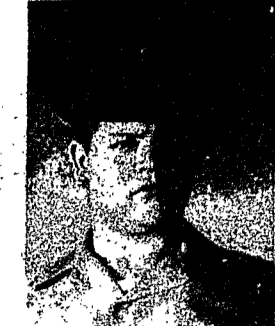

Thick smoke drove would-be rescuers back from the inside cell of the three-cell block in which Berrigan's body was found about an hour and a half after firemen arrived. Firemen were bringing the flames under control as rescuers donned gas masks and finally reached Berrigan's body.

The victim had been booked near midnight on a public drunk charge following his arrest in a Pass Christian cafe. Mayor Hursey said police told him they searched the prisoner thoroughly, removing matches and cigarettes from his pockets, before locking him up.

City Patrolmen Earl McArthur and Alexander Saucier first attempted to reach the prisoner but were held back by the thick smoke.

Berrigan was born in New Orleans in 1909 and is survived by his stepfather.

Funeral services were scheduled for 3 p.m. today in St. Paul's Catholic Church at Pass Christian. Burial was to be in St. Paul's Cemetery.

Pass Prisoner Killed in Fire

One prisoner was suffocated to death in a fire which broke out early Wednesday in a basement jail cell of Pass Christian City Hall, causing extensive damage to the building.

A coroner's jury ruled that John Berrigan, 50, suffocated before flames burned his clothes from his body, leaving only his shoes intact. Apparently the blaze started when a bunk bed mattress was ignited.

An employee of the Daigleville Packing Co. discovered the fire about 2 a.m. and notified the fire department and police.

Thick smoke drove would-be rescuers back from the inside cell of the three-cell block in which Berrigan's body was found about an hour and a half after firemen arrived. Firemen were bringing the flames under control as rescuers donned gas masks and finally reached Berrigan's body.

The victim had been booked near midnight on a public drunk charge following his arrest in a Pass Christian cafe. Mayor Hursey said police told him they searched the prisoner thoroughly, removing matches and cigarettes from his pockets, before locking him up.

City Patrolmen Earl McArthur and Alexander Saucier first attempted to reach the prisoner but were held back by the thick smoke.

Berrigan was born in New Orleans in 1909 and is survived by his stepfather.

Funeral services were scheduled for 3 p.m. today in St. Paul's Catholic Church at Pass Christian. Burial was to be in St. Paul's Cemetery.
